

FEATURES & FUNCTIONALITIES NOT AVAILABLE IN DPE

The following is a quick list of the items and functionalities currently not compatible with the Campaign Management system's Dynamic Pledge Experience (DPE):

- **Standard Search Type**
 - If you have **Allow Search IRS** and/or **Allow Write-In Agency**, in addition to **Allow Locate an Agency** enabled for your organization, you must select the **Progressive Search Type** from the dropdown menu.
- **Payroll Add-Ons**
- **Functionality of the HTML for skin tags on the left navigation bar**
- **The ability for donors to enter missing salary**
- **Split Zip Files**
 - Split Zip files are not compatible with DPE, unlike in SPE. DPE campaigns default to the charity with the highest percentage, and this charity displays in content area 2 on the donor site. If the donor prefers to select a different charity, they must select the "change" button.
- **Recognition Programs**
